

## **LIGHTNING POLICY**

Officials should wait no longer than one hour total in starting a game due to any reason.

A delay in a game that has already begun must also not exceed one hour. You have 1 hour to restart a game after it has begun.

For example: Game starts on time at 7 p.m. and lightning is first seen at 7:15. A mandatory 30 minute clock begins before game may be resumed. If another lightning flash is seen at 7:46 p.m., game is called since total delay would be greater than one hour following a second 30-minute wait.
